SUMMARY

Through my academic background and personal projects, I have had the opportunity to collaborate with different teams, conduct research, develop products and embrace a culture of building together. As a solution-oriented developer who enjoys taking responsibility and is always eager to learn, I am ready to take on the responsibilities your position requires. Thank you for taking the time to review my profile. You can find more details in my CV.

EXPERIENCE

MID FULL STACK DEVELOPER

Formica AI | JULY 2026 – PRESENT

- Promoted in July 2026 from Junior Frontend Developer to Mid Full Stack Developer.
- Work with Elasticsearch / OpenSearch and own security vulnerability remediation work.
- Lead refactoring and optimization efforts; have a say in customer requests and project architecture, with increased team responsibilities.
- Work on the Formica AI V3 platform modernization using React, Next.js, NestJS, PostgreSQL and Java backend integration.
- Migrated 600+ components and 200+ hooks/utilities/pages in the V3 migration; removed a legacy Node.js gateway and reintegrated Java endpoints.
- Resolved 50+ SCA/SAST findings.
- Built AI agent platform features: streaming LLM agents, markdown rendering, deep-think responses, image upload, voice-to-prompt and conversation history.

JUNIOR FRONTEND DEVELOPER

Formica AI | JANUARY 2025 – JULY 2026

- Built frontend interfaces with React (class components), TypeScript and Tailwind.
- Worked on a multi-tenant architecture for on-premise deployments.
- Handled API integration, internal tooling, bug fixes, frontend/backend features and production maintenance with React, TypeScript and NestJS.
- Worked on Formica-TRLOGIC risk-office applications and the admin panel (NestJS, PostgreSQL, MongoDB).

JUNIOR FULL STACK DEVELOPER

Bifırsat | SEPTEMBER 2024 – JANUARY 2025

- Developed both the mobile app and the website using technologies such as TypeScript, React, Firebase, Tailwind and React Native.
- In this e-commerce solution, aggregated discounted products from various sources into a single platform via APIs.

INTERN DEVELOPER

Ege University Hospital IT Center | JUNE 2024 – SEPTEMBER 2024

- Took part in developing a custom application designed for online meetings.
- Worked with technologies such as JavaScript, React, Socket, Axios and Compose.
